# We Deliver More Relevant Search Results

Our platform guides patients to treatment options and content tailored to their needs, empowering them to quickly take their next step toward recovery.

The screenshot shows a web browser window with the URL `recovery.com/kentucky/women-only/`. The page title is "Best Women's Only Rehab Centers in Kentucky". Below the title, there is a paragraph: "The best rehab is one that meets your needs. Our independent research team compiled information on the [14 best treatment centers for women only in Kentucky, United States](#)." To the right of the text is a large image of a bridge over water at sunset. Below the main content, there are 14 search results. The first result is for "ARC Yellow Banks Recovery" in Owensboro, Kentucky, United States. It features a "Residential" tag, a star rating of 5 stars (26 reviews), and filters for "Insurance Accepted" and "Cash Pay Rate". The description reads: "A Christ-centered, women-only detox and residential program offering compassionate clinical care, spiritual support, and vocational training opportunities... More". Below the description are icons for "Addiction Recovery", "Budget Friendly", and "Licensed Medical Facility". To the right of the search results, there are two sections: "Why Trust Recovery.com?" and "Frequently Asked Questions".

# Patients Filter to Match Their Unique Needs

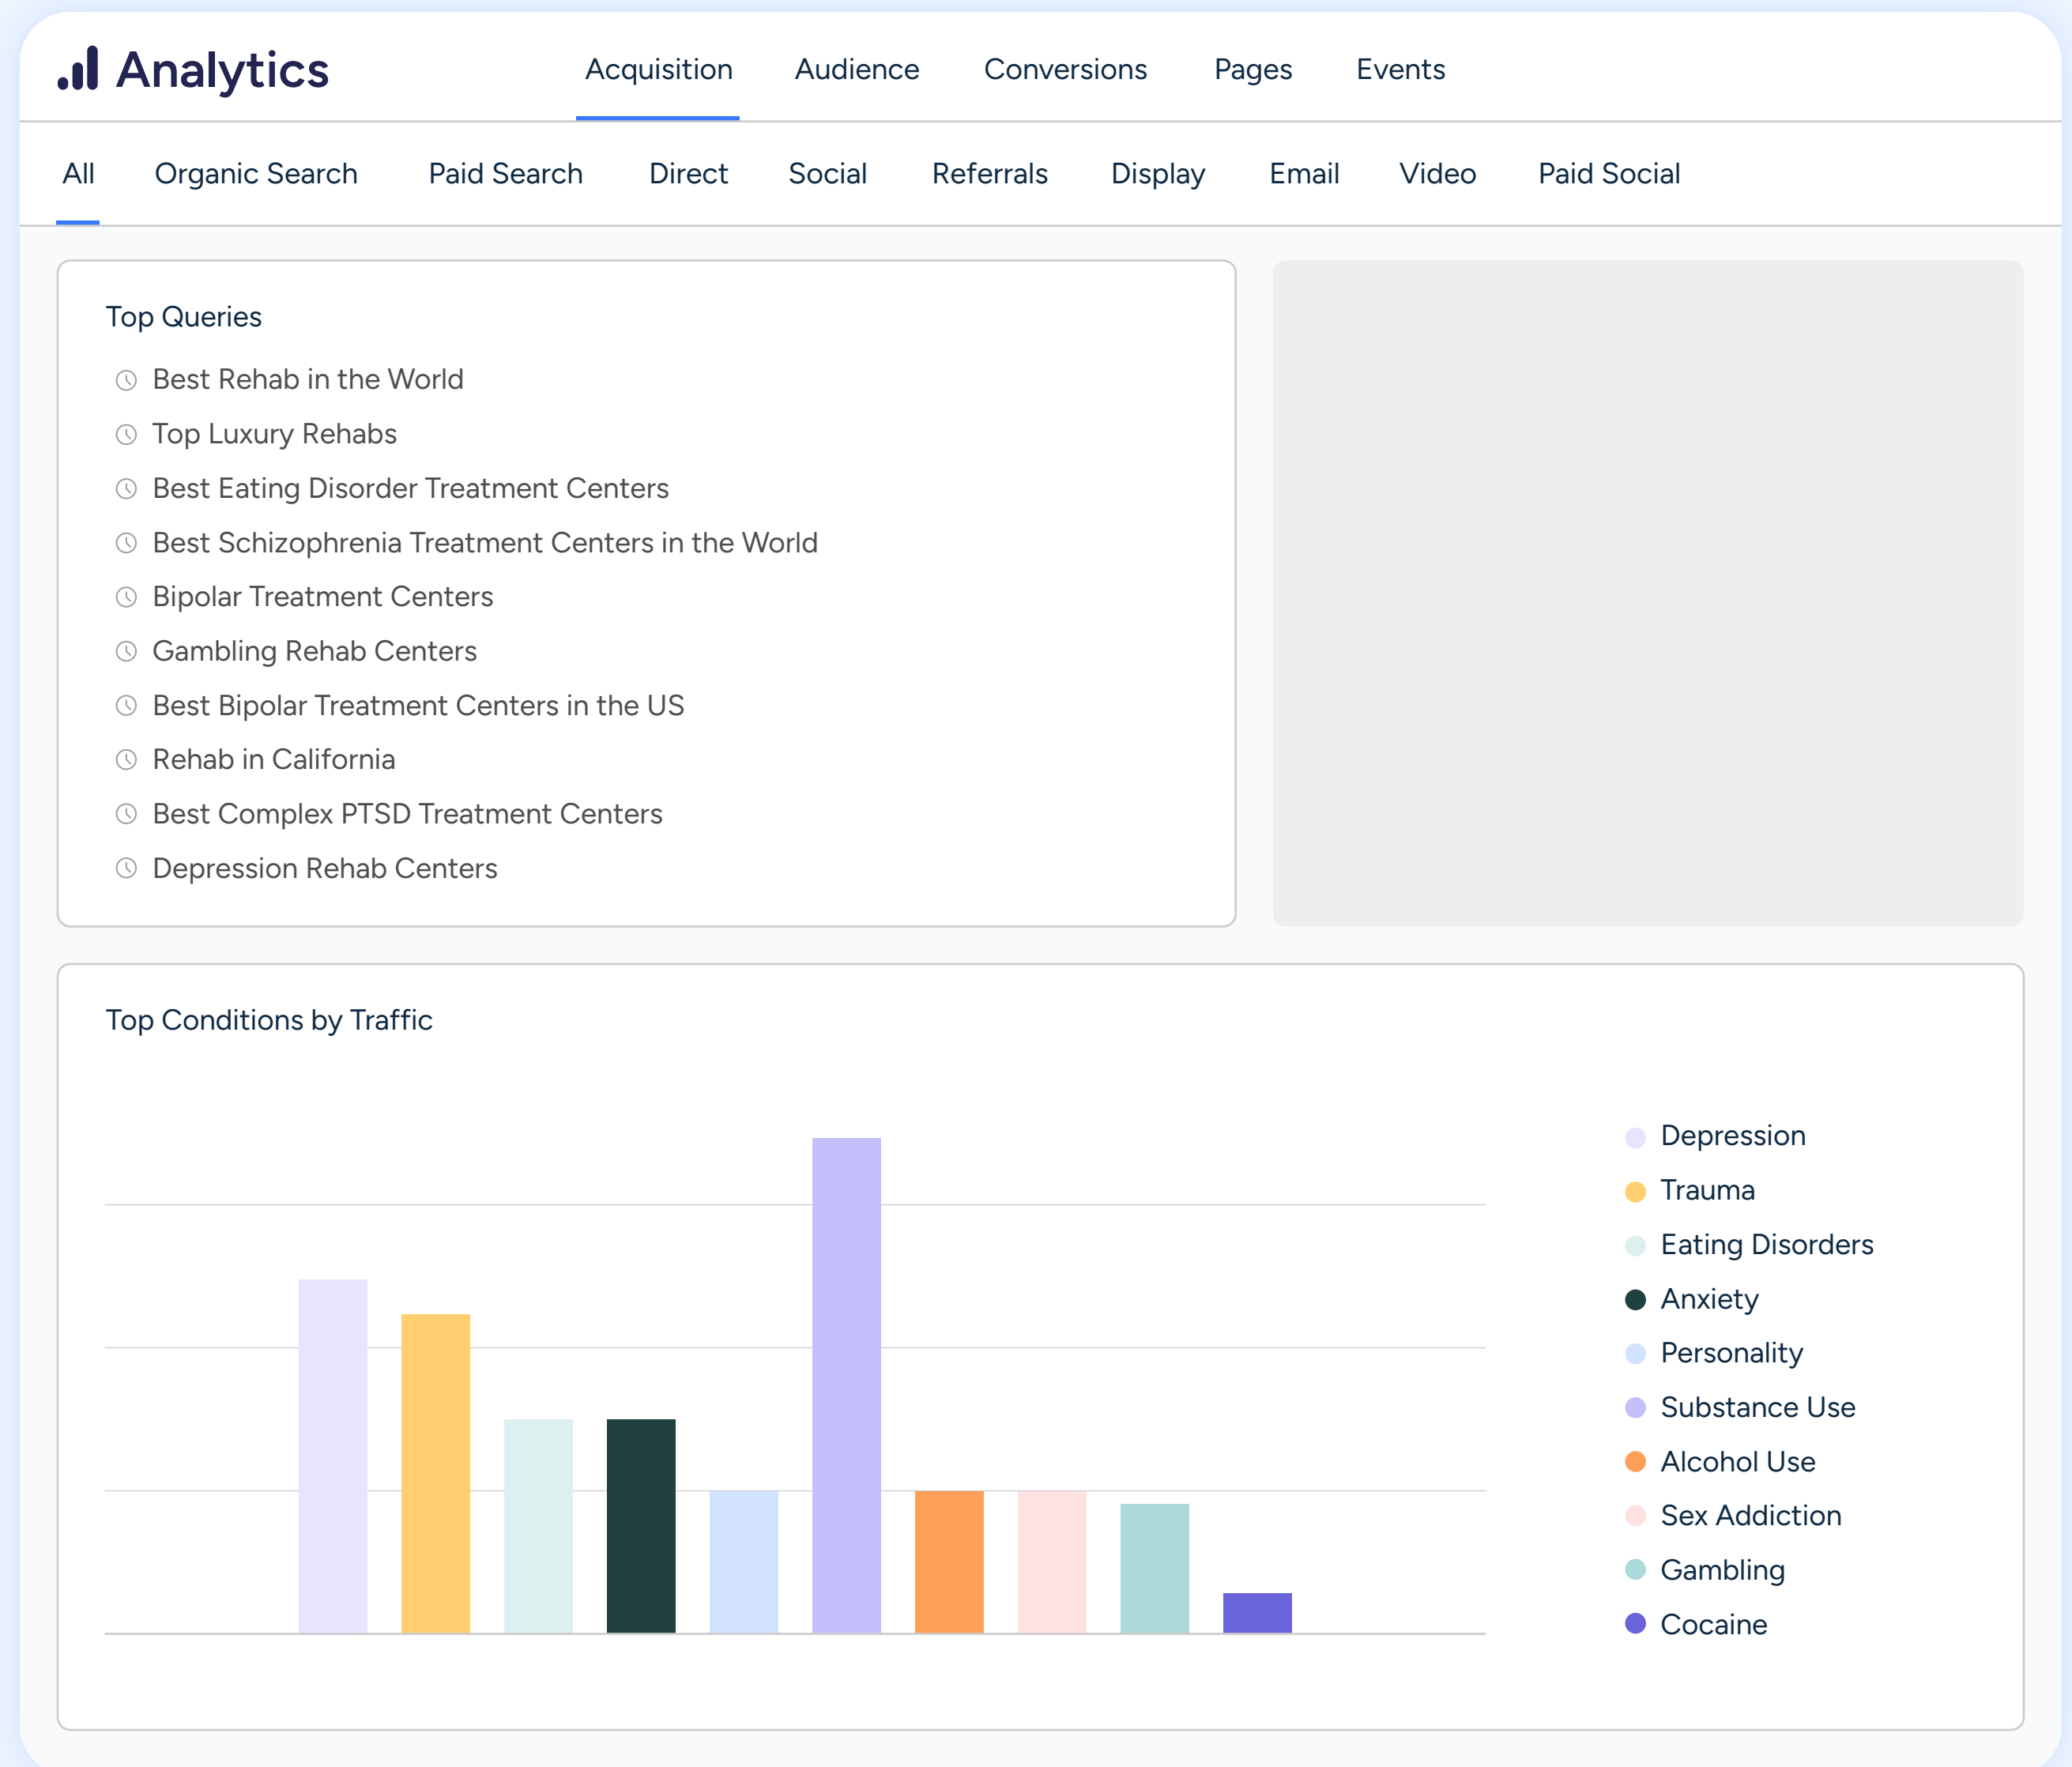

Patients narrow their search by filtering what matters most to them. This tailored approach connects patients with providers who truly align with their needs.

The screenshot displays the Recovery.com search interface. At the top, four filter categories are highlighted with callouts: Location, Condition, Insurance, and Level of Care. The search results page shows a search for 'Florida' with filters for 'Florida', 'Depression 1', 'Aetna 1', and 'Detox 1'. A list of 87 centers in Florida is shown, with the first result being 'Beachway Therapy Center' in West Palm Beach, Florida. The center's profile includes a 5-star rating (220 reviews), insurance acceptance, and various treatment options like Substance Use and Mental Health, Depression, Anxiety, Co-Occurring Disorders, Drug Addiction, and Equine Therapy. A 'View' button and a 'Verify Insurance' button are also visible. On the right side, there are two panels: 'Treatment Options In Florida' and 'Levels of Care'. The 'Levels of Care' panel lists: Detox (50+ Centers), Residential (50+ Centers), Outpatient (50+ Centers), Sober Living (2 Centers), and Virtual (3 Centers).

# Trust Us for Ethical Patient Acquisition

- ✓ **Comprehensive**  
We create a free profile for all providers who treat behavioral health so treatment seekers can make thorough comparisons and well-informed choices.
- ✓ **Direct**  
We never use hotlines or call centers, ever. All site visitors are able to directly contact treatment providers of their choice.
- ✓ **Transparent**  
We embrace NAATP's Marketing Code of Ethics, and paid ads are clearly marked. All profiles avoid information bias that would push treatment seekers toward a specific level of care or approach.
